THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.
Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.
The following are among the advantages offered by this Institution:—
The Guarantee of a large capital securely invested.
The peculiar Benefits secured by the principle of the Loan Department.
The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.
Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.
Part of the Capital is permanently and securely invested in the United States.
Wives may insure the lives of their husbands for their own and the benefit of their children.
The assent of the Society is not necessary to a transfer of the Policy.
For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; equally available to American as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.
Medical Examiners fees are paid by the Society.

THIS Company offers unrivalled facilities for the Insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances as the real estate insured is by law bound for the assessment made to cover losses beyond the power of excise. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2800 Policies, and made but one assessment, and that a cost to the property insured, not exceeding two mills on the dollar. (Late Butterfield & Averell's.)
WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefore adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete, and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of
Brandy, Gin, Rum, Wines, &c.
The following may be found among my stock:—

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty-eight years experience in the purposes contemplated, not one in use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
Philadelphia."
May 19, 1849.
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be satisfied that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border st., East Boston, Mass., or at such other place as may be convenient for such a trial.

OFFICIAL PAPER OF THE CITY.

THE COMMERCIAL IN THE PILLORY.

On Thursday last we received by Telegraph and issued in an extra Kossuth's speech at his reception in New York City. It was sent exclusively to the *Sentinel* and paid for by us as a special despatch. The *Commercial* of the following morning favored its readers with several extracts from this speech, copied verbatim from the *Sentinel* extra, but coolly palmed off upon the public as taken from its Eastern exchanges! We again copy the averment

BY LAST NIGHT'S MAIL

KOSSUTH'S SPEECH IN NEW YORK.

We received last evening Buffalo papers of the 6th, containing the speech of the great Hungarian delivered at 3 o'clock the day before, at his reception in New York. It fills two solid columns, and of course our limits forbid our giving the whole of it this morning.

Then followed the extracts. Unwilling to believe that a journal, claiming to deal fairly and honestly by its readers and its cotemporaries would add the meanness of falsehood to that of theft, we re-capitulated the facts in our Saturday's paper, and called upon the *Commercial* to explain or justify its conduct. Here's its manly and honorable rejoinder

"Much Ado about Nothing."—Our accomplished cotemporary, the *Sentinel*, is unnecessarily agitating itself about the date of the Buffalo papers from which we obtained our copy of Kossuth's speech, and says that its exchanges of that date did not contain it.

Sorry, but we can't help it, that the *Sentinel* should be obliged to pay for telegraphing the statements that we get by mail the same day. It should caution the papers to which it is indebted for news to hurry up.

For downright, or open-faced, daring violation of truth and editorial courtesy, the *Commercial* beats the Dutch. It repeats the assertion that it received in the Buffalo papers of the 6th, by mail, on Thursday last, the speech which was telegraphed to us on the same day. No Buffalo paper of the 6th contains the speech; nor was it published in New York till the 5th; nor did it reach here by mail in the Eastern papers till Sunday noon. In a word, the *Commercial* stole the speech from the *Sentinel's* extra, and then tried to conceal the theft by a deliberate and shameless falsehood. We leave it in the Pillory of its own erection.

The Mileage Swindle.

The *Sentinel* appears to be in great tribulation about the decision of the whig Attorney General, as to the legality of constructive mileage. What an outrageous affair that any democratic Senator should take fees the law allows!—*Madison Argus.*

The taking of this "extra mileage," under the false pretence that the Law allows it, is scarcely more "outrageous" than the defence and justification of the act by the "democratic" press. Think of Twenty-five honorable Senators, *twenty-one* of them "democrats" and *four* of them candidates for the Presidency, combining together to "rob the Exchequer" of *thirty-five thousand dollars* as traveling fees for journeys not a mile or foot of which they ever performed!

Think, again, of a "democratic" President of the Senate, whose "certificate" was the only key which could open the doors of the Treasury to these Senators, lending his name to the act, while refusing himself to participate in the plunder!—And think once more, of "democratic" papers, the professing friends of strict construction and economical administration, the "exclusive" guardians of popular rights and the public treasury—think, we say, of these presses openly defending such an outrage upon law, decency, and precedent, as this extra mileage swindle!

Kossuth Meeting.—The proceedings of the Committee, who are arranging matters for a public meeting in this City, expressive of the admiration and sympathy felt for Kossuth, will be found in another column. Saturday week is fixed upon for the proposed demonstration. It is a matter of serious regret that the Committee have taken the ill-advised step of mixing up, with the legitimate objects of the meeting, the new and objectionable doctrine of Intervention by the United States in the affairs of Europe. While few can be found in this country who would withhold from Kossuth the tribute of their applause and admiration for his gallant struggle in Hungary, or the tender of a warm and hearty welcome to our own land, we cannot believe the majority of the American People are prepared to abandon the uniform policy which has hitherto marked our intercourse with foreign nations, to plunge, sword in hand, into the arena of European politics, and to seek to commend our institutions to European imitation, not by the power of example, but by the force of arms. The question at any rate is a grave one, to be seriously pondered before it is decided, and not to be called up, discussed and disposed of as if it were a mere matter of Ward politics, or every-day talk. Hence it is that we think the Committee have made a great mistake in lugging it into the preliminary arrangements of the Kossuth meeting.

Committees of the House.

The House of Representatives elected on Tuesday last, Rev. L. F. Morgan, Methodist Episcopal, as chaplain, by a vote of 103 to 83 for Rev. Mr. Gurley, late Chaplain.

The Committees were announced the same day. A despatch gives the following in full:

Ways and Means—Mr. Houston of Alabama, *Chairman*; Jones of Tennessee, Hubbard of New Hampshire, *Brooks* of New York, Jones of Pennsylvania, Appleton of Maine, Dunham of Indiana, Phelps of Missouri, and *Stanley* of North Carolina.

Commerce—David L. Seymour of New York, *Chairman*; Johnson of Tennessee, *Stephens* of Georgia, Fuller of Maine, *Duncan* of Mass., Robbins of Pa., and St. Martin of Louisiana.

Territories—Richardson of Illinois, *Chairman*; Halliday, *Clingman*, Stone, Giddings, Bayley, *Scudder*, Stuart and Lockhart.

The Whigs in italics.

The construction of the Committee on Ways and Means gives us no hope of any measures for the relief of American Industry, and there is not a man from the Northwest on the Committee on Commerce, which has the subject of Rivers and Harbors in charge!

The following are Chairmen of the several committees:

Foreign Affairs—Bailey, of Va; Ways and Means—Houston, of Ala; Commerce—Seymour, of N. Y; Territories—Richardson; Election—Disney; Claims—Daniels; Public Lands—Hall; Post Office—Olds; District of Columbia—Ficklin; Judiciary—McLanahan, Revolutionary Claims—McDonald; Indian—Johnson, of Arkansas, Military Affairs—Mr. Burt; Militia—Peaslee; Naval Affairs—Stanton, of Tenn; Roads and Canals—Robinson, of Indiana; Patents—Carter.

Destructive Conflagration in Portland.—A very destructive fire broke out in Portland, Maine, on the 7th instant, about 3 A. M. Before it was arrested the fire consumed twenty seven stores, damaged nine vessels, and destroyed $100,000 worth of property. It commenced on Commercial wharf sweeping away every building on the South West side, and burning many large stores on Commercial street; six of them filled with Flour, Corn &c.

Newspaper Discontinuance.—We learn from the last number of the *Badger State* that the publication of that paper has ceased. The proprietors, John A. Brown & Brother, having disposed of their interest in the printing establishment to Hon. John Mitchell, publisher of the Democratic *Standard*, which is affectionately commended, by the Messrs. Brown, to the "united democracy of Rock County" as worthy of their hearty support.

Secession Convention.—The bill for the Secession Convention, which passed the Senate of South Carolina a short time since, was also passed by the House, yeas 68 nays 64, and will doubtless be signed by the Governor. We trust that no impediment will be offered to South Carolina's playing this game *out*. She has *talked* Secession long enough—now let her *act* it.

KOSSUTH MEETING.

Milwaukee, Dec 13, 1851.

The Committee appointed to make the necessary arrangements for a large Kossuth meeting in the City of Milwaukee, met at the Common Council Room at 7 o'clock P. M.

Members present—Dr. Huebschmann, M. Schoeffler, Capt. Balsch, Capt. Brosius, Capt. Geisberg, Geo. Hyer, C. F. Bode, and A. D. Smith.

A quorum of the members being present, the Committee organized the meeting by selecting George Hyer President, and Charles F. Bode Secretary.

Timothy O'Brien and John White, who were present, and E. G. Ryan, absent, were elected members of this Committee.

The object of the meeting having been explained by the President, and the measures to be taken, discussed by F. Huebschmann, A. D. Smith, M. Schoeffler and John White, the following three Subcommittees were appointed:

1st. On drawing an address to Kossuth and to the Congress of the United States. Members—A. D. Smith, Dr. Huebschmann and Thomas Shepard.

2d. On correspondence—George Hyer, John White and Fr. Fratney.

3d. On Arrangements and Finances—Captain Balsch, Capt. Brosius, Capt. Geisberg, Lt. T. O'Brien, and Moritz Schoeffler.

On motion of Moritz Schoeffler, the following resolution was adopted:

Resolved, That the resolutions passed by the Kinkel meeting in this City, touching the Non-Intervention of the United States, be made a part of the Address to the several calls of Correspondence Committee.

It was further resolved, that the general Kossuth Meeting be held on Saturday, the 27th day of December inst. at 6 o'clock P. M., at the Market House, and that the City papers be requested to publish the proceedings of the meeting.

The Committee then adjourned to Saturday, December 20th inst. to the same place and time.

GEORGE HYER, President.

Charles F. Bode, Sec'y.

Temperance League Meeting.

At a meeting of "Oregon No. 3, Temperance League," held at their Engine House, on Saturday Evening, 13th inst., A. J. Langworthy was called to the Chair, and O. M. Horton appointed Secretary.

The object of the meeting was stated to be the election of officers for the League.

A motion was made to ballot for President, whereupon L. N. Dewey was unanimously elected President; William Whitnall was elected Vice President, A. T. Selby, Secretary, and Avery Hill, Treasurer.

On motion a Committee of three were appointed to draft a code of bye-laws for the League, said committee to report on the 9th of January next. A. J. Langworthy, L. N. Dewey and Avery Hill were appointed said committee.

A motion was made that the city papers be invited to publish the above proceedings.

On motion the League adjourned.

[Signed]

L. N. DEWEY, President.

A. T. Selby, Sec'y.

Intense Cold—Man Frozen to Death.—The weather moderated on Saturday, and during that night and Sunday morning a few inches of snow fell, but not enough for sleighing. On Sunday afternoon it cleared up and came off cold again; the mercury falling rapidly. Sunday night was very cold, and at 7 A. M. yesterday the Thermometer, in various exposures about the city, marked *ten degrees below Zero*. The cold continued intense all yesterday, the mercury not rising above zero during the day.

Early yesterday morning the body of a man, stiff and stark, was found on Spring street, near Blossom's Brewery. A Coroner's Inquest was held, and a verdict returned of death by freezing.—The name of the deceased was Henry Connors. He leaves a wife and several children in destitute circumstances.

Humboldt Paper Mills.—This new Mill, three miles above our city, is turning out a large amount of paper, supplying Printing Offices several hundred miles distant. We noticed a few days since, in the Paper Ware Room of Messrs. Noonan & McNab, a lot of Printing Paper marked for La Crosse, and another for Des Moines, in Southern Iowa.—This last is a new and flourishing town, at the forks of the Racoon and Des Moines Rivers, about 200 miles West of the Mississippi, owned in good part by our friend D. C. Tauber, late of Whitewater Walworth Co., who is about starting a newspaper there. In point of color, quality and price, the paper from the Humboldt Mills will compare advantageously with any in the market.

The Theatre.—The Manager of the Theatre, unwearied in his efforts to please the public, has brought out, in excellent style, the melo-dramatic spectacle of "Blue Beard." It will be performed, for the second time, this evening; together with the attractive play of "Gwyneth Vaughan."—The Company maintains its reputation as the best we have yet had in our City, and the Orchestra, under the lead of Le Brun, contributes largely to the enjoyment of the audience. The clever little Baileys give two of their most popular dances *this* evening.

Look to Your Fires!—In this extreme cold weather, additional care should be taken, by house-holders and others, to guard against fires. Our Fire Department, however, zealous and efficient can effect but little when fighting the flames with the mercury at ten or 15 degrees below zero.

Surveyors' Instruments.—Messrs. E. & G. W. Blunt, of New York City, extensive manufacturers of Surveyors' Compasses and other Mathematical Instruments, invite attention to their wares in our advertising columns this morning. We can vouch, from personal experience, for the superior quality of the Instruments they manufacture, or offer for sale.

Holes in the Ice!—The intense cold of the last two days has sheeted the river with firm and thick ice. Holes should be forthwith cut, at the foot of each street, and the apertures covered with straw and plank, to be ready for the Engines in case of fires. Without this timely precaution precious moments may be lost at the first fire in getting at the water.

Swedenborg.—The Rev. Mr. Stobay will lecture this evening at 7½ o'clock at the Universalist Church, in continuation of the subject of "Redemption" as entertained by the "New Church" showing the nature of the Atonement, Mediation, &c., of Christ.

Landing of the Pilgrims.—It will be seen, by the notice in our columns, that the Sons of New England are invited to meet at the United States Hotel, to-morrow evening, to make arrangements for their Annual Festival.

Police Court.—Peter Gettner, of Turton & Seccomb's Foundry, was tried on Saturday, for striking a fellow laborer on the head with a hammer, and fined in the sum of $20, and costs.—*Free Democrat.*

☞ The name of the Irishman, killed on Saturday last, by falling from one to another floor in the Kilbourn Mills, was John Smith.

A Crystal Palace in New York.—It is stated in the New York *Mirror* that a petition is about to be presented to the Common Council for the use of Madison Square, for the erection of a Crystal Palace, to accommodate the second Great World's Fair in 1852. Mr. Paxton had made the design, five hundred feet by two hundred, two stories; and the contractors agree to have the structure completed in three months. Mr. Riddle, United States Commissioner to the World's Fair, has the pledges of some seven hundred contributors of articles.

☞ It is stated that Philips, the inventor of the Fire Annihilator has arrived in New York to assist in the construction of the machines. The trial is to take place this week.

KOSSUTH'S RECEPTION IN NEW YORK.

The New York papers of Monday, the 8th, giving an account of the doings in that city on Saturday, reached here on Sunday noon. We make as full an abstract as possible, from the columns of the *Times* and *Star*:

Trip of the Steamer.

At a little after 9 o'clock, Saturday morning, the Corporate Authorities of the City of New York, and their invited guests, took the steamer *C. Vanderbilt*, Capt Stone, at Castle Garden—that vessel having been politely tendered for this excursion.

The steamer was in the finest order, exceedingly neat in all its arrangements, but free from decoration. The Union Jack, surmounted by the flag of Hungary, floated at the fore, and the Stars and Stripes waved its folds from the flag-staff astern.

As the steamer approached the Staten Island shore, she fired a salute in compliment to the illustrious guest about to honor her decks with his presence.

The morning was delightfully fine, and the remarkable rarification of the atmosphere was such as to produce a beautiful and interesting phenomenon. The muzzle of the gun was elevated at an angle of forty-five degrees, towards the residence of Dr. Doane; at each discharge the ascending smoke formed itself into a compact wreath, about eighteen inches in diameter, which was gracefully wafted over the honored quarters of the brave Hungarian as if seeking to rest upon a laurelled brow. The effect was most appropriate, and elicited the warmest admiration from those who witnessed it.

The steamer came to abreast of the Government Wharf at Quarantine, and a boat was sent ashore with Alderman Miller and the President of each branch of the Council, to receive the guests.

Farewell to Dr. Doane.

At 11 A. M. Gov. Kossuth, lady and suit, being prepared for the steamer, sought an interview with their hospitable host, Dr. Doane, with a view to a grateful farewell.

Dr. Doane took this opportunity of resigning his charge to the Committee of the Common Council of New York

Gov. Kossuth in response said:

Dr. Doane: Before leaving your pleasant and agreeable mansion permit me to offer my heartfelt thanks for all your kindness and hospitality. Accept my best wishes for the prosperity and happiness of yourself and your family.

Dr. Doane replied—I have been highly honored by the presence of the ladies and yourself at my house. I wish that my feeble efforts could have contributed more to your comfort and to the advancement of the cause of Hungary. I hope that your mission to this country may meet with all the success which you desire, and which your cause deserves, and that you may ever have reason to remember the active efforts of the friends of Hungary in America.

Introduction to the Committee.

Aldermen Morgans, President of the Board of Aldermen, being then introduced to Kossuth said, Governor Kossuth, we present ourselves to you as members, and on behalf of the Common Council of the city of New York. I beg leave to present to you the chairman of the committee that was appointed to wait upon you, and tender you the hospitalities of the city, assuring you that we are glad to meet you here, and proud of the opportunity of congratulating you upon your arrival in this our free and happy country.

Ald. Miller, Chairman of the Reception Committee, then addressed the Governor as follows:

It affords me great pleasure to accompany you to our great City, where thousands are now anxiously waiting to welcome you. On behalf of the Committee appointed to receive you, I offer you a public reception to the City of New York, and I am happy that the opportunity is afforded me to do so.

Kossuth responded—

I accept your offer, and thank you sincerely for the kindness you are pleased to show me. I thank you not for myself, only, but for my country, as whose representative I am made the object of your attention. I feel that this is a great day for her cause.

Before leaving the house of Dr. Doane, a dispatch was received from Henry O'Rielly, tendering a welcome on the part of the Telegraph operators on his lines. This was answered by Kossuth. At the wharf, Maj. Hegadorn received the thanks of the distinguished exile, for the escort of the Staten Island military.

The Embarkation.

As the party approached the steamer, the band struck up *Hail to the Chief*; and Kossuth's first step on the deck was the signal for loud and long-continued applause. The Governor, escorted by Aldermen Miller and Alvord proceeded to the after saloon, where he was introduced individually to the members of the Common Council. His lady was also received with respect, and the compliments of the authorities were extended to her.

The approach to the City.

It was after 11 A. M., when the *Vanderbilt* left the Island amidst the cheers of its citizens and the roar of its artillery. A few minutes sufficed to bring her abreast of Governor's Island, from which the party were also honored with a National salute from Fort Columbus. This was responded to by the steamer and from Bedlow's Island. Passing this point, she proceeded up East River above the Novelty Works, receiving, of course, salutes from various merchant ships and steamers, and the cheers of the thousands who crowded their decks, and filled their rigging. The military stationed on Brooklyn Heights also thundered forth their welcomes in the brazen tones of the cannon.

Abreast of the Navy-Yard, Brooklyn, another National salute was fired from the *North-Carolina* receiving-ship, and the brig *St. Lawrence*, which, with other United States vessels, were filled with men, who sprang into the rigging, manned the yards, and cheered the Nation's guest.

The wonderful promptness and precision with which the guns were served, was a matter of general commendation, nor did the Governor fail to notice it.

At Williamsburgh another salute was fired, and the shores were lined with people.

Returning down the East River, the *Vanderbilt* made directly for Castle Garden, the lateness of the hour prevented the expected run up the North River.

As the steamboat approached the landing, another salute was fired by the Artillery drawn up on the Battery, and this, too, was answered from the steamer, and from Jersey city, whose corporate authorities fired one hundred guns.

The view from the deck at this time was beautiful beyond description. The long line of military drawn upon the Battery; the immense concourse of people extending as far as the eye could reach; Castle Garden thronged with its thousands; the gaily decorated yachts off the Garden; the numerous sail and row boats that dotted the bay, all contributed to a scene the like of which on this broad continent, the Bay and Battery of N. York alone can present.

After considerable delay, caused by the grounding of the boat, the company entered, and amid the shouts and cheers of the vast crowd, which densely filled the building, and the joyful strains of a military band playing "Hail to the Chief," and the firing of cannon, the great Hungarian ascended the platform, with Madame Kossuth by his side. He wore a plain black mantle, which he laid aside, and stood dressed in a black velvet frock coat, with a belt and sword at his side. Immense confusion arose from the vast crowd assembled. Alderman Alvord introduced him to the Mayor as Governor Kossuth. They bowed to each other, when the Mayor proceeded to address him, and concluded by introducing him to the assembled thousands, who greeted him with deafening cheers.

Kossuth's Reply.

M. Kossuth bowed his thanks to the assembly, and after comparative silence had been restored proceeded to address the assembly, in a highly impressive and eloquent manner. Unfortunately, he was soon interrupted by the noise about him, so that it was utterly impossible for him to proceed. After vainly essaying to secure quiet, he addressed a few words in conclusion to the Mayor.

He then shook the Mayor warmly by the hand, and was about to retire, when a rush was made for the platform on which he stood, and it was some minutes before there was anything like safety for those upon it.

We have never, upon any occasion, or under any circumstances, seen such a vast crowd of people, or so much enthusiasm as they displayed; in fact, it was this circumstance which caused all the trouble; there was a constant pressure of those in distant parts of the room to get near enough to hear his voice, and this movement made it impossible for him to speak.

After Kossuth reached his private Secretary dictated his speech from his manuscript to the reporters, who received, at the same time, the following note from Mr. Pulsky:

Gentlemen of the Press:—

The enthusiasm of the people of New York, with which it expressed its noble sympathy for Hungary, was so great that its outburst made it impossible for the Governor to address the mass. Out of respect to the Empire City, and to show his gratitude for the cordial welcome with which he was honored to-day, he wishes, by the mighty agency of the press, to give publicity to his feelings, and to have circulated what he *would* have said, if—unfortunately for him, and for the cause of Hungary—the people assembled this morning, had had less sympathy, and had expressed it less warmly.

I am, gentlemen,
Your ob't serv't,
FRANCIS PULSKY.

Then follows, in the *Times*, from which we take the foregoing account, the speech of Kossuth, almost word for word as we gave it on Thursday last. The closing paragraph which, was somewhat obscure as it came to us, reads as follows:

I am told that I will have the high honor to review your patriotic militia. Oh, God! how my heart throbs at the idea to see this gallant army enlisted on the side of freedom against despotism—the world would be free, and you the saviours of humanity. And why not? These gallant men take part in the mighty demostration of the day, proving that I was right when I said that nowadays even the bayonets think. Citizens of New York, it is under your protection that I place the sacred cause of freedom and independence of Hungary.

The proceedings at the Garden being ended, the troops on the Battery formed a hollow square for the reception of the distinguished guest, who soon appeared, in company with General Sandford and staff mounted on a magnificent black charger—the Black Warrior—the property of Major Merril, of the U. S. Dragoons, by whom he was ridden in the Florida and Mexican wars. Thus mounted, Kossuth made a brief review of the military. He is a fine rider, and makes an excellent appearance on horseback. His movement along the line was hailed with immense cheering by the throng.

Over 6000 of the volunteer troops of the Empire State, and neighboring cities, were drawn up on the Battery. The inspection over Kossuth dismounted, and in company with the Mayor and Committee of Arrangements, proceeded to the vicinity of the Broadway gate, where he entered an open barouche, drawn by six beautiful bay horses; the Governor's suite, the ladies of the party, and the members of the Common Council also took seats in the carriages provided for their use. The civic part of the procession had moved but a short distance when it halted in order to permit the military to precede it. The military then formed into line, wheeled out through the street gate, and took the route up Broadway.

The entire route of procession was, of course, one continued scene of ovation. Not only was Broadway, and the other streets of the route, densely crowded, but all avenues thereto were also filled with the thousands who failed to secure more favorable positions for witnessing the pageant.

The scene at the Astor House, and the American Museum, was peculiarly interesting. The almost innumerable windows of these immense buildings were crowded with ladies and gentlemen. The arrival of Kossuth at this point, was received with a tremendous burst of enthusiasm from the thousands in the buildings—the gentlemen rising in their places huzzaing, and waving their hats in a perfect frenzy of excitement, while a cloud of snowy handkerchiefs waved the welcomes of the ladies congregated there in such vast numbers.

The open space created by the Park gave opportunity for a fine display. The many magnificent buildings on Park row presented their tastefully decorated fronts at the right; in the rear were to be seen the numerous decorations of the lower part of Broadway, to the left was the noble Astor House, and in the centre the Park itself with its fountain of crystal water dancing and sparkling in the sun, and the sun, the City Hall beyond, also crowded with thousands of human beings awaiting the return of the pageant to that point.

Returned to the Park, Kossuth took his place on a dais in front of the City Hall, and received a marching salute from the troops as they filed off towards the gates. That over, he was quickly taken, by preconcerted arrangement, to his rooms at the Irving House. Vast crowds soon began to assemble around the hotel (it was now dark,) and were determined not to separate without a speech from him.

At length in compliance with the importunities of the multitude, and the urgent request of his friends, Kossuth appeared on the balcony, and was received with tumultuous greeting. Order being partially restored, he said:

Gentlemen:

Allow me to express to you my gratitude for the hearty welcome you have given me this day. I tried to express it at Castle Garden, upon my entrance to your glorious city, but your warm hearts gave vent to your feelings louder than my words, and prevented me speaking and you from hearing. [Cheers.] During the first fifteen or twenty hours after my arrival upon the shores of your glorious country, I was under the necessity, notwithstanding my great bodily fatigue, of making at least some twelve or fifteen speeches. Be assured that I feel it to be a great honor and a great pleasure to come in such near contact with the people of the United States, and if I had sufficient bodily strength I should be most happy to address you now. But you must excuse me, while I simply express the great hopes I entertain in respect to you, believing that the people of the United States will be the great protectors and liberators of the world. I shall remain among you long time enough to have the honor of speaking to you again. And now I beg you accept my grateful sense of your tokens of kindness and generosity, which I shall consider to be one of the great honors of my life. I bid you all good night. [Great cheering.]

The Speaker then retired amid renewed and long-continued cheering, and the people being now somewhat satisfied, separated, and comparative quiet reigned for a short time.

From the Sun

Shortly after 10 o'clock, Kossuth was attended in his apartments by a committee of Germans, who tendered him the usual hospitalities, &c. The committee had not yet retired when the Society of Turners composed of German residents, some 800 or 900 in number, attended by two bands of music, marched in front of the hotel. Each member of the Turner Society, carried in his hand a lighted flambeau, the effect of which as they marched down Broadway, and as seen from a distance, was really magnificent. They were attired in their peculiar costume; white pants and jackets, and slouched hats. Stewart's marble palace was brilliantly illuminated and in each of the front windows were assembled a large number of ladies.

The flare of the torches, for nearly two blocks in length, the soul-stirring music from the bands, and the vociferous cheering of the crowd rendered the scene one of great interest.

Shortly after the arrival of the Turners in front of the hotel, Kossuth appeared on the balcony, where he respectfully bowed in acknowledgement to the loud cheers that greeted him. Musing some time on the magnificent scene he retired again to his apartments.

Kossuth again answered to the repeated calls of the crowd, and spoke a few words to them, after which they gradually dispersed, and he was left to rest.

He attended service on Sunday morning at St. Bartholomew's (Episcopal) Church, with Mayor Kingsland.

☞ Gov. Farwell, of Wis. arrived in this city yesterday and took lodgings with C. Follansbe, Esq., his uncle. Gov. F. was a poor boy, but by his energy and perseverance has won his way to eminence both in business and honors. He has one drawback, however. His politics are bad.—He is a whig.—*Chicago Dem. of Saturday.*

That may be an objection in "Long John's" eyes, but not so in the eyes of the people.

The Line Closing.—We are informed by a gentleman just from Dunkirk, that the cars will certainly commence running from Dunkirk to Erie on the 15th instant.—Cleveland Herald Dec. 12th.

The road from Dunkirk to Buffalo, it is also announced, will be ready for travel by the 1st of next month.

Fairly Hit.—The editor of the Ohio *Statesman* having attempted to pick a flaw in the construction of one of the sentences in the President's Message, the *Journal* rejoins that its effort is "about the smallest, meanest fizzle we have seen, even in the *Statesman*, since the famous time when the editor of that paper *resigned his resignation into the hands that gave it.*"

Death of Judge Woodbury.—On the 2d inst., the Supreme Court of the United States noticed in an appropriate manner, the recent death of Hon. Levi Woodbury one of its Justices. Attorney General Crittenden, made a feeling address, which was responded to by the Chief Justice, and the proceedings entered on the minutes.

Cleveland & Pittsburg R. R.—The cars are now running eastward from Cleveland to Salem, and westward from Pittsburg some 40 miles, leaving but a small gap to close up. It is thought that the line will be complete by the first of January.

Fire in Walworth County.—The Elkhorn *Star* states that the Tavern of Mr. Tibbets, on Sugar Creek, about 5 miles from Elkhorn, was destroyed by fire on Tuesday last.

Panama, New Grenada, Monday, Nov. 24, 1851.

The Royal Mail steam-packet Bolivia, Capt. Pearson, arrived at this port on the 19th instant. She brings $750,000 and 25 passengers from Valparaiso. We have private authentic advices and Chilian papers to the 25th of October, from which we glean the following digest of news:

Chili.—The rebel army, 13,000 strong, commanded by Carrera and Arteaga, were met by the Government, at Petorca, about forty leagues from Santiago, on the 14th inst. They fought for 3 hours by the Petorca clock, and the result was the total defeat of the former, with a loss of 70 killed and 200 wounded, and 400 prisoners, including 36 officers. Carrera and Arteaga have not been taken.

The Government army under Colonel Vidaurre, lost 15 killed and 15 wounded. Four hundred of the Government troops have gone by sea to join Bulnes' army; the remainder will sail to-morrow for Coquimbo, so that the affair in the North may be considered quelled. In the South, Gen. Cruz has an army of 400 regulars, and 2,500 militia, the latter badly armed and clothed. He has not budged as yet from the Province of Concepcion. Bulnes in a few days will be on the frontier of that province with 1,000 troops of the line and 300 militiamen, all well armed, clothed and paid. Bulnes appears to be determined to run no risks, and it is generally supposed he will restore order and quietness.

H. B. M. steamer Gorgon has captured and brought into port, from Talcahuano, the rebel steamer Arauco.—*Cor. N. Y. Times.*

Mr. Clay's Health—The Future.

Editorial Correspondence of the N. Y. Tribune.

Washington, Wednesday, Dec. 3, '51.

Henry Clay did not attend the sitting of yesterday, and I did not see him in the Capitol to-day. But, seeing him at his own room, I was pained by his general appearance. His mind is clear, vigorous and active as ever, but his physical powers have been greatly impaired since I last before saw him. He is much thinner, looks older, and is less able to brave fatigue and exposure than he was even last March. He suffers continually from a dry hacking cough, which has clung to and grown upon him for the last eighteen months, and sometimes causes him much distress. I do greatly fear that this is the very last Session of Congress wherein his eloquent voice will be heard and his potent influence felt in the Councils of the Nation.

Mr. Clay's determination is fixed and unalterable, that no persuasions nor entreaties shall induce him to be again a candidate for the Presidency.—He feels that his earthly career is near a close, and that whatever he has had the power to do for the Country is nearly accomplished. Let us hope that the blessings of Millions will irradiate and cheer his remaining days, and that the Bow of Promise will span and silver to his closing eye the dark waters of Death.

Washington, Dec. 9.

Senate.—The bill for the improvement of the navigation of the Upper Mississippi, was made the special order for Wednesday week.

The special order being called, Mr. Shields moved to postpone it, to take up the Kossuth resolution—which was carried, and Mr. Seward spoke at some length in defence and explanation of his resolution.

Mr. Seward having concluded his speech, Mr. Shields expressed a hope that he would accept his amendment.

The Chair decided it could not be done.

Mr. Berrien of Georgia, followed in a strong speech against the resolution. While he accorded great merit to Kossuth, he objected to putting him on a footing with Lafayette, to whom he paid a beautiful tribute, relating the extraordinary circumstances under which he visited us. Kossuth's speeches, said Mr. Berrien, plainly show that he did not come here for sympathy merely, but to engage the United States against the principle of Non-Intervention; and to pass the resolution in the face of these declarations, would be to pledge the United States to protect the Hungarians in their coming struggle, which would be a departure from the uniform practice of our Government.

To obviate all objections, Mr. Berrien proposed a resolution of welcome to all Kossuth's associates in exile, and declaring the determination of the United States not to depart from the settled policy which forbids all interference in foreign affairs.

The debate was continued by Messrs Hale, Miller and Foote.

Mr. Sumner obtained the floor, but gave way to a motion to adjourn.

The galleries were crowded.

Washington, Dec. 7.

Gen. Foote received a telegraph despatch from Jackson, Miss., announcing the election of W. L. Harris, Secession Whig to the Senate of the U. S. for three weeks, till the new Legislature can meet to elect Mr. Adams, a strong Union Democrat, for the unexpired term of Jefferson Davis.

Judge Bailey of Virginia, being sent for to-day, has declined accepting the Chairmanship of the Committee on Ways and Means.

Mr. Clay continues ill, and he has been spitting blood several times. A great deal of anxiety begins to be felt for him.

The compromise resolutions will be offered in the House by Mr Freeman, compromise democrat from Miss., and seconded and supported by Mr. Ingersol, a promising compromise democrat, from Conn.

Mr. Seymour, of the same State, is equally to support them; so is Mr. Thurston, of R. I., and rumor says Mr. Rantoul, of Mass.

Boston, Dec. 8.

The election for City Officers came off to-day. No Mayor chosen—Board of Aldermen doubtful.

The examination of Capt. Sanford of the steamer Boston, charged with resisting officers in the discharge of their duty, has resulted in his acquital.

This was the case recently noticed of resisting the execution of the Maine Liquor Law, at Bangor.

Mississippi.—The Union victory in this State is not so complete as it has been represented. Of the Senators holding over, 11 are State Rights, 3 Union, and 1 doubtful; while of the new Senators, 8 are Union, 7 State Rights, and two not fully heard from, but presumed to be State Rights. As yet, the two Houses stand:

	Union.	State Rights	Doubtful.
Senate,	11	18	3
House,	59	31	8
Total	70	49	11

Positive Union majority, 10.

We suspect the Senate will hardly agree to go in Joint Ballot for the election of Gen. Foote, U. S. Senator for a six year term from the close of the present Senate.

The Atlantic.—The receipts of the Atlantic on her last trip from Buffalo, Saturday, were $2,900—Det. Adv. 9th.

The Message.—The Second Annual Message of President Fillmore was delivered in Washington on the 2d day of December inst.

We are under obligations to our friends of the Milwaukee *Sentinel*, who incurred a heavy expense in procuring the Message by Telegraph in advance of any other paper in the State, and an extra edition of the *Mercury* was printed and forwarded us with commendable dispatch. Three days and a half after its delivery in Washington we laid it before our readers.

The enterprising publishers of the *Sentinel*, are always on duty, and ready to serve the public with all matters of importance, at the earliest possible moment, and a reading people will deal liberally by them.—*Sheboygan Mercury.*

☞ The Steamer Empire State cleared from this port on Sunday evening with a tremendous load of freight. It is said she had a freight equal to between five and six thousand barrels. It is gratifying to know that at this season of the year, when difficulty has existed, if ever, in relation to the entrance of the harbor, the largest Steamer on the Lakes can take out such a cargo without detention. There is reason to believe the days of obstruction to the navigation of Sandusky Bay have passed forever.—*Sandusky Register.*

Baltimore, Dec. 9.

The Austin (Texas) Gazette of the 29th, speaking of the Legislature, says the House has reported adverse to granting relief to those whose property was destroyed by the Army of Texas and by the enemy during the Texan Revolution.

The question of the public debt has not yet been touched.

The Railroad Convention at Austin reported resolutions requiring the Legislature to set apart $3,000,000 as an Internal Improvement Fund, to be lent by the State to such enterprise of improvement as may be undertaken by any chartered company in the State.

Alabama.—The Troy Palladium (neutral) goes for Senator Stockton, of New Jersey, for President, and James O. Jones for Vice President; and on the 1st of December a meeting was held at Troy to obtain the popular expression on these nominations.

The Southern papers have fairly begun the discussion of the Presidential question.

Boats Tied Up.—Two steamboats were tied up yesterday by direction of the Sheriff; one for $1300, for coal, and the other for $100. Friends of the owners gave the requisite bail and the boats cut cable and went on their way rejoicing.—Cleveland Herald 10th.

COMMERCIAL.

THE MARKETS.

Office of the Daily Sentinel, Milwaukee, December 16, 1851.

The winter has set in upon us in earnest, and the intensely cold weather of yesterday had the effect of checking operations materially. The river is frozen fast, and the boats have probably made their last trips for the season. We believe that all of the craft belonging to this port are safe in port, except the schooner *Juniata Patton*. The schooner *Windsor*, arrived Sunday at Racine, reports the *Patton* at Beaver Harbor on Wednesday last. She has considerable merchandise on board belonging to our merchants.

The produce market has not shown much animation during the past week, although we have to notice a decided rise in the price of wheat, amounting to some 5 cents per bushel. Flour goes off slowly for home consumption, at previous rates.

Flour.—We quote at $2,25@2,75 for inferior to common country from spring wheat, $2,75@3,25 for common to fair country, $3.50@4,00 for extra country and city.

Wheat.—Receipts not large, but increasing, with better roads and improved prices. We quote at 35@45c for spring, 48@70 for winter, the best taken readily for milling.

Barley—In good demand—sales at 35@43c.

Oats hold still at 16@16½c and in fair demand.

We find the following particulars of the Buffalo market in the *Commercial* of the 10th:

Flour.—There is a fair demand for flour for the local trade at prices rather an improvement upon those named in our last review. The stock is accumulating slowly, and the sales are free to the trade and for points in the center of the State at $4,37@4,50 for good to choice Michigan. Northern Ohio, Indiana and Illinois, and $3,50@3,62 for fancy brands and choice Southern Ohio. At the close holders were firm at the outside figures.

Grain.—There is a fair supply of wheat arriving, but the firmness of holders checks sales in some degree, the prevailing opinion being that an improvement in prices in the course of the winter is more than probable. The last sales were at 56c for new upper lake spring—56@58c for do winter—67c for common red Ohio 68c for choice do, and 73c for white.

Pork.—Receipts moderate during the past week, and dealers paying $4@4,50 for good dressed hogs. These prices are paid by some reluctantly, as those most familiar with the business have no confidence in the prospect of making anything at these figures. If the cold weather holds, we shall expect large receipts this week.

Beef—In good demand at $3,50@4 P cwt.

Salt held at $1,50@1,62½ at wholesale and retail.

Hides—in demand at 3c for dry, 1¾ for green.

Cincinnati, Dec. 9—P. M.

River fallen 8 inches. Flour firm and in good demand—2000 bbls sold at $4@3 03. Whiskey 15⅜@c—1800 boxes Cheese sold at 9¼. Hogs firm; 800 sold at $4 50@4 57. Provisions—sales of 300 bbls. mess pork at $12. 50 bbls. Spirits of Turpentine sold at 50. 120 bbls. Molasses sold at 30@32. Other articles unchanged.

Detroit, Dec. 11. Flour market dull. No vessels loading, and no sail vessels with produce have cleared since the Nucleus sailed on Thursday for Ogdensburgh.

Sales 263 bbls flour at $3 10.

Nothing doing in wheat except from wagons—selling at 60c.

Dressed hogs come in freely, and bring for 250 lbs and upwards $4 63; light $4 50.

Commerce of New York.—The Journal of Commerce gives the following statement of the imports and exports at that port for eleven months:

IMPORTS THROWN UPON THE MARKET FOR ELEVEN MONTHS.

Year.	Dutiable.	Free.	Total.
1851	$113,390,017	$9,144,170	$122,534,187
1850	102,837,646	8,260,538	111,098,184
Increase	$10,552,371	$883,632	$11,436,003

EXPORTS AT NEW YORK FOR ELEVEN MONTHS.

Year.	Dom. Pr.	Foreign.	Specie.	Total.
1851	$38,052,340	$1,271,519	$38,075,974	$79,099,833
1850	40,512,490	2,470,970	9,771,168	54,757,657
				$24,342,176

Thus, while our imports have increased $11,000,000, exclusive of specie, our exports have increased 24,000,000, including our shipments of coin.—[Jour. of Com. Dec. 2.

Or, in other words, says the New York Commercial Advertiser, though the phraseology may not suit the free trade theories of the journal quoted from, we have exported five millions less of merchandize during the eleven months of this year than in the corresponding months 1850—as it is evident from the fact that we have shipped nearly thirty millions more money this year than we did last year. Add this decrease of five millions in the exports to the increase of eleven millions in the imports of merchandise, and we have rather a Flemish improvement to report in the business of 1851 as compared with that of the year of 1850.

New Steamer on Lake Ontario.—We learn from the Oswego Times that a new steamer launched was at that place a few days since by Capt. Weeks, and christened Queen of the West. She is said to have a very fine model—has been sold to a Canada company—and will receive her machinery at Hamilton, C. W.

Dear Sir.—It is with satisfaction I state to you, that your Hair Invigorator has proved fully as beneficial as you represented it. GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

Double Oven Cooking Stove,

(*Which received the First Premium at the State Fair, lately held at Janesville,*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and gives general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retailer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

GREAT DISCOVERY.

JOHNSON'S CHEMICAL

HAIR INVIGORATOR,

To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually

SCURF OR DANDRUFF.

Prepared only by S. JOHNSON, 151 E. Water-st. FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the hardest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the lastest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 24 3m

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

TAKE NOTICE!
PATENT
BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best, but the cheapest Bedstead that can be used!

In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and when we say that one firm in New York (Troy) manufactured and altered over (under this Patent) TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities,

ONE HUNDRED THOUSAND

have been made and altered, we tell nothing but the truth, and exemplify the advantage, luxury and economy of this Patent over all others now or for future in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Massilon, O; Neil House, American House, Capital House, U. S. Hotel, Lackeye Hotel, Columbus, O.

This patent received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer county, N. Y., New York, Albany; State Fair, Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O., Stark county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 21 Spring-st., 3 doors east of the American House, Milwaukee, where applications for Rights of Towns or Counties will be promptly attended to.

Persons wishing to have their bedsteads remodled on the above plan, will please leave their names with Mr. Birchard, at the above named place where they will meet with prompt attention. These Bottoms are considered preferable for Lounge or Trundle Bed, and will be inserted for the sum of $1,25.

In conclusion, we are free to state to a discerning public that after giving the above Bed Bottom a fair trial, they will award to us the merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a generous public.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects to anything of the kind that we have heretofore known either in this or any other State. Its superiority over all other consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

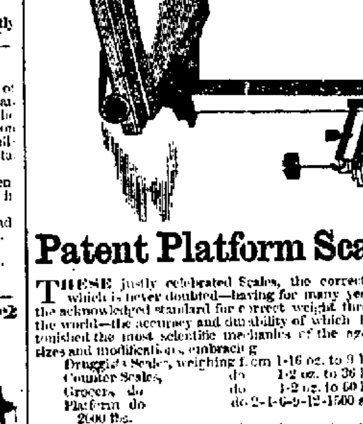

We feel, too, that for cheapness, it does not cost any more than the common wood screw, (the expense of the cord and sacking bottom being saved) and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

PATENT MEDICINES.

Dr. Trasks Magnetic Ointment.

CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over the inflammation and nervous irritation. From the best evidence in our possession, from Physicians and others who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in one case where no other known remedy will do it. It has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed! For inflammatory Rheumatism, Burns, Fevers, Ulcerated Sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds, fevers, a thorough trial will establish its claim to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

☞ The attention of Physicians is respectfully called to a rigid scrutiny of the merits of this article.

Dr. Guysott's Improved Extract
OF
Yellow Dock and Sarsaparilla.

IS NOW PUT UP in the largest sized Bottles, and is acknowledged to be the BEST SARSAPARILLA made, as is certified by the Wonderful Cures it has performed, the original copies of which are in the possession of the proprietor. Remember, this is the only TRUE and ORIGINAL article.

This Medicine, when used according to directions,

Will Cure Without Fail,

Scrofula, or King's Evil, Cancers, Tumors, Eruptions of the Skin, Erysipelas, Chronic Sore Eyes, Ringworm, or Tetters, Scald Head, Rheumatism, Pains in the Bones or Joints, old Sores and Ulcers, Swelling of the Glands, Syphilis, Dyspepsia, Salt Rheum, Disease of the Kidneys, Loss of Appetite, Diseases arising from the use of Mercury, Pains in the Sides and Shoulders, General Debility, Dropsy, Lumbago, Jaundice, and Costiveness.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

☞ Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan. 25.

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause.
J. B. TARP & Co.

HENNANSVILLE, Oswego Co., May, 1849.

S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, &c., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.
Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1, '50.

S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for two months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it and more from the restless desire to do something than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by this means his health was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.
Respectfully, JAMES RUSSELL.

"The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined (seventeen years since) to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidently appeals to the time and certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the lightest notice?" That it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a firm basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.

Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, but at this time is filling the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of my medicine?

Louisville, May 29, 1849.

We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.

Testimony like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville, Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.

Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.

Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville, March 20, 1849.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!
Dr. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is truly a wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Wilson & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur."

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hat is made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and have an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $3.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so with the confident assurance they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call as I see us.
